

CHANGE IN FILE STATUS  
APPROVAL FORM

DATE January 21, 1987

CURRENT FILE NO. ACT/017/014

RECOMMENDED FILE NO. INA/017/014

COMPANY AND MINE NAME Consolidated Mining and Milling, Zirconium  
Mines

REASON FOR CHANGE IN FILE STATUS

Division personnel visited two proposed surface zirconium mine sites in October, 1978. Each deposit covered an area of about three to four acres. The operator wanted to file DOE's on the sites so that several hundred tons of ore could be procured for testing purposes. There is no record of any DOE's for the operation and the operator's address is not current. There is a clipping in the file indicating that the company experienced financial problems in early 1980. Ken May, who is familiar with the area, states that if any work was done, it was very small in size.
